

Plate 7 Illustration showing the intended 1890s repairs (in pink; identified as the eastern elevation, but it is actually the western elevation; WRO BA2324 ref 250-1)

Plate 8 Late 20<sup>th</sup> century picture of the bridge, looking north-west (Douglas Opperman 2000)

*Plate 9 Trench 1 access ramp down the riverbank, looking north, 1m scale*

*Plate 10 Trench 1 access ramp down the riverbank, view west, 2x 1m scales*

---

*Plate 11 Trench 1 topsoil strip for main compound, Trench 1, view south-east, no scales*

*Plate 12 Watching brief on the north side of the river, Trench 3, view west, no scales*

*Plate 13 Watching brief on the south side of the river, Trench 2, view north-east, no scales*

*Plate 14 Former road surface (206), in Trench 2 south of the bridge, view south-west, 1m scale*

---

*Plate 15 Marl infill (313) of the bridge, Trench 3, view east, 1m scale*

*Plate 16 Footing of the toll house, Trench 3, view south-west, 1m scale*

*Plate 17 Surface (309), Trench 3, view north-west, 1m scale*

*Plate 18 Wall (310), Trench 3, view east, 1m scale*

---

*Plate 19 Modern concrete reinforcement within the bridge structure on the north bank, view south-west, 1m scale*

*Plate 20 The collapsed bridge, from the south bank, view north-west, no scales*

*Plate 21 The collapsed bridge, from the south bank, view north-west, no scales*

*Plate 22 The collapsed bridge, from the south bank, view north-east, no scales*

---

*Plate 23 The north spring of the bridge and northern pier after the removal of much of the structure, showing the original infill, ashlar blockwork at its base and stonework backing the brick arch, from the south bank, view north-west, no scales*

*Plate 24 The bridge after the removal of loose material, showing the original infill and details of the central piers, from the south bank, view north-east, no scales*

*Plate 25 The south spring of the bridge and southernmost pier, after the removal of loose material, showing the 1898 infill, from the north bank, view south, no scales*

## **Appendix 1 Technical information**

### **The archive (site code: WSM 67959 and 67960)**

The archive consists of:

- 3 Field progress reports AS2
- 3 Photographic records AS3
- 3 Site Drawings
- 752 Digital photographs
- 3 Trench record sheets AS41
- 1 CD-Rom/DVDs
- 1 Copy of this report (bound hard copy)

The project archive is intended to be placed at:
