

# **The Alderley Sandhills Project: The Archaeological Excavation of Two Rural Working-Class Cottages, Alderley Edge, Cheshire.**

**Report to English Heritage and The National Trust,  
December 2004**

**By  
Eleanor Conlin Casella**

**With Darren Griffin and AJNW Prag**

The Hagg Cottages, Alderley Edge, Cheshire, circa 1930.

Photograph by Mr. George Barber.

Reproduced courtesy of Mr. Roy Barber, Mrs. Molly Pitcher & Mrs. Edna Younger.

This report has been written by Dr Eleanor Casella (Archaeology, School of Arts, Histories & Culture, University of Manchester) with contributions from Darren Griffin, Malcolm Bailey, Sean Bell, Laura Brenton, Gaylyne Carter, Sarah Croucher, Dr C. G. Cumberpatch, Dr Roderick Mackenzie, Graham Mottershead, Irit Narkiss, Leigh O'Regan, Prof AJNW Prag, Antonia Thomas, John Tibbles, Dr Joan Unwin, Dr Susie White, and Dr Hugh Wilmott.

**Front Cover Image:** Mrs Edna Younger, former resident of the Hagg Cottages holding a small porcelain toy dog excavated from Trench A.

## Acknowledgements

Special thanks are naturally due to Mr. Roy Barber, Mrs. Molly Pitcher, and Mrs. Edna Younger, former residents of the Hagg Cottages who generously shared their memories of life at Alderley Edge.

The authors also wish to thank the following individuals and organisations for their contributions to the project and this final report:

Paul Sorensen, the site landowner; William Harris of neighbouring White Barn Farm; Steve Mills, Doug Kidd, Nigel Dibben, and Phil and Elaine Taylor of the Derbyshire Caving Club; Wendy Scott and Meg Barnett of The Wizard Tea Room; Jeremy Milne, Paul Rutter, and David Standen from the National Trust; Tony Wilmott, Jennie Stopford, Kath Buxton, and Andrew Davison of English Heritage; Adrian Tindall of the Cheshire County Council.

Various participants in field and laboratory stages of research helped support the project. We would like to thank the following for their special contributions: Sarah Croucher, Russell Palmer, Sam Bolton, Devin Hahn, Sophie Pullar, Laura Brenton, Sarah Whitehead, Steven Price, Osamu Maeda, Jo Wright, Matthew Watkins, Alice Hall, Zoe Sutherland, Jonathon Pickup, Jo Laycock, Martin Burgess, Katherine Baxter, and Leigh O'Reagan. Non-invasive surveys were undertaken by Malcolm Bailey of UMIST and Graham Mottershead of UMAU, University of Manchester. Sean Edwards, Galina Gussarova, and Ed Bellinger of Manchester Museum completed the botanical survey of the site before excavation. Finally, post-excavation analysis was undertaken by the ARCUS team at the University of Sheffield, with particular thanks due to Chris Cumberpatch, Hugh Willmott, Joan Unwin, and Jim Symonds.

Thanks are due to Sarah Whitehead for special dedication to her duties as Laboratory Manager after August 2004. Derek Trillo of G.10 Photography & Design Unit (University of Manchester) provided special assistance while undertaking photography of the ASP Collection.

Additionally, the report contributors would like to thank the following people for their assistance in the production of the individual reports.

Dr C.G. Cumberpatch: David Barker, Eleanor Casella, Darren Griffin, Oliver Jessop, Joan Unwin, Hugh Willmott, students from the Department of Archaeology, University of Sheffield for the reconstruction of pots for illustration.

Dr Susie White: I am grateful to Dr David Higgins for proof reading the text and for his comments on it and to Peter Hammond and Paul Jung for the information on the patented vulcanite mouthpiece.

Sean Edwards: Thanks are due to David Earl, for his help in identifying the bramble (*Rubus*) species.

Irit Narkiss: We would like to thank Clare Turgoose, a conservation student from Cardiff University on a summer placement for carrying out the testing.

# **Table of Contents**

## **Section A: Project Background**

- A.1: Introduction
- A.2: Area Description
- A.3: Previous Work

## **Section B: The Alderley Sandhills Project**

- B.1: Project Origination
- B.2: Original Aims and Objectives
- B.3: Updated Project Design Aims and Objectives
- B.4: Methodology for Analysis

## **Section C: Site History**

## **Section D: Pre-Disturbance Surveys**

- D.1: Vegetation Survey
- D.2: Topographic Survey
- D.3: Electro-Resistivity Survey
- D.4: Magnetometry Survey

## **Section E: Excavation**

## **Section F: Artefact Analysis**

- F.1: On Site Artefact Management
- F.2: Artefact Methodology
- F.3: Specialist Analyses
- F.4: Unanalysed Artefacts

## **Section G: Environmental Analysis**

## **Section H: Oral History**

## **Section I: Results**

- I.1: Introduction
- I.2: Research Question
- I.3: Project Objectives
- I.4: Interpretation

## **Section J: Data Archive**

- J.1: Information Storage
- J.2: Artefact and Other Object Storage

## **Section K: Future Directions**
